

## Credit Card payment

The payment process is as follows (you should allow pop-ups):

How to pay with credit card in Masaltos.com?

**Screen 1: Payment Page** You have to enter your credit card number, its expiration date and its validation code (3 last numbers at the back of the card if it is a Visa; 4 last numbers in the front of the card if it is an American Express). Click the continue bottom and get forwarded to...

**Screen 2: Connection to your credit card provider.** A password is required to ensure that the card holder is the one claiming to be. If you are already registered in the password-protected online payment verification system, you must have the password. Enter it and your purchase will be finished. If you are not registered, you should ask for a password at your credit card provider. You can do it by clicking the Register Now button...

**Screen 3: You will be connected to the credit card provider.** There, you should follow the steps to get your own password. Once you have it, you can go back to finish the purchase.

### Advantages:

1. Through the payment page, your credit card details will be only managed by the verification system, and not by the e-commerce
2. If you lost your credit card or if it was stolen, it can not be used in electronic shops belonging to security protocols Verified by Visa. Those protocols ensure that you are the real owner of your credit card.

### Disadvantages:

1. If you don't have the password, the payment process will be one step longer
